- SQL
- Php
- Angular

PROFILE

Passionate, determined, and hardworking Full Stack Developer.

My name is Eden, I bring a robust background in web technologies.

Problem-solving is my passion, and I thrive on challenges that allow me to express creativity and apply my knowledge. Proficient in crafting responsive and styled React applications on the client side, coupled with server-side expertise in Node.js, Express, and proficiency in databases like MongoDB and mySQL. Eagerly motivated for my next challenge, seeking a dynamic company that values a quick, independent learner ready to contribute and actively contribute to the company's growth.

EXPERIENCE

Websites developer
2021-present

Website developer experienced in creating diverse sites for a marketing business. Proficient in HTML, CSS, PHP, and WordPress. Full-stack skills refined through courses, with hands-on projects in REST, React, Angular, and mySQL. Independently working on responsive web applications and server-side projects post-course. Nowadays i continuously driven to expand and apply knowledge in dynamic and challenging environments.

MILITARY SERVICE

2019-2022

combat commander artillery corps

Part of my military service I was required to present and demonstrate abilities in the social and personal aspects. Gained skills such as meeting deadlines, working in a team, tolerance, efficiency and facing challenges .
